Service Recommendation

Rimonim hotel chain has chosen SilverTravel to build and promote the group's web site.

During the period of working with SilverTravel our company's home site has advanced and we have increased our sales results from it in a significant way. We receive the most professional collaboration from SilverTravel staff and see them as full partners in activism and success in this field.

The wonderful team led by Yaniv and Naty provides fast, efficient and professional service for all our requests and requirements on the site. Diligence SilverTravel company's employees - is contagious!

Another major advantage is that SilverTravel never stops and always wants to promote more and more forward, with new technologies and new developments appropriate in today's Web world.

Above all the personal relationship, mutual artist on a daily basis.
